Australia's World Class Lures

Predatek Spoonbill

Predatek's most versatile lure. Sized to attract a range of predators. It's right at home in fresh and saltwater, from shallows to the deep blue. Great for barra, mangrove jack, trevally, estuary cod, Murray cod, golden perch, bass, etc. Casts and trolls like a dream.

Rugged **Spoonbill** is named for its broad, scooped lip. It swims in a narrow, panicky fashion that turns on killer instincts. Add a loud rattle and a dazzling spectrum of colour choices, and you know why **Spoonbill** is consistently one of the top selling **Predatek** lures.

Cast it.

Pitch close to structure like tree falls, rocks, weed beds, coral heads and drop offs. The high traction lip pulls it down into the strike zone quickly, and bounces it out of snag trouble. Pause frequently and let it rise a little before jerking into dive mode again. Keep alert as it rises, that's often when it gets slammed by excited gamefish. Walk the dog, twitch and rip, **Spoonbill** will perform.

Troll it.

Spoonbill is an excellent trolling lure that can handle a good turn of speed up to 7 knots, firmly in the blue water speed range. It's fast and tough enough to lure blue water marauders – yet can do a slow, in-your-face dance near cover to trigger an ambush.

Predatek has built a reputation for integrity, original lure designs with high quality construction & finish, and outstanding performance in the water – where it counts. We understand hydrodynamics, industrial design, fish behaviour and the art of applying these sciences to create innovative and productive fishing lures.

Spoonbill S85 Body Length – 85mm, Weight – 14gms, Depth – 4.5m (15ft), Speed – 7 knots
